

Ex-Governor W. E. Stanley, of Wichita, was in Topeka yesterday.

Everybody will be admitted free at the rink tomorrow afternoon to see the orange race.

Harry Bone, United States attorney, has returned to Topeka from Ashland where he went to vote.

The chances are that it will take the greater part of next week to complete the paying of Kansas avenue.

The game between Washburn and Kansas university will commence tomorrow afternoon at 3 o'clock.

Not much betting is in evidence around the haunts of the sports on the result of tomorrow's football game.

Election day in Topeka secured one record. Not a fight of any sort was reported at or near any of the voting places.

A drive through the country shows that there will be plenty of home-grown turkeys on the feast market for Thanksgiving time.

Dick Cooley and Roy Johnson returned this morning from Joplin where they have been attending the meeting of the Western Association.

Stakeholders of election bets are still holding on to the money, waiting for the official count to decide the gubernatorial contest.

Councilman F. E. Nippa left today for Phillipsburg, Kansas, to attend the funeral of his brother who is to be held at that place Saturday.

Cal. H. W. J. Hinn lectures at the Auditorium tonight. This is the second entertainment in the regular course for the pipe organ fund.

E. A. Dyche, a brother of Prof. L. L. Dyche of the State university, who has been in the grocery business at 628 West Sixth avenue, has disappeared.

A. W. Coleman, the traveling man who was shot by a burglar Tuesday evening, is improving slowly and Dr. Keith now has hopes that he will survive.

There were 96 straight Socialist votes polled in Topeka at the election Tuesday, ten Socialists and 86 Prohibition according to the unofficial returns.

An important meeting of the Commercial club will be held this evening at which plans will be talked over for the big banquet which is to be held on Topeka Day.

A gallon of whisky was the inducement to get a bunch of twenty-three men to the polls Tuesday afternoon.

Whether they voted "right" is a matter of conjecture.

It was considerably cooler today than it has been for the past few days and the change was acceptable. This summer weather in the winter time is a little depressing.

The epidemic of diphtheria which threatened for a while has given way and occasional secret fever cases are the only ones reported by the city sanitary department.

The condition of Mrs. John Green, who was injured in a runaway yesterday, is much improved and it is thought that her recovery is a question of but a few days.

Plans for rebuilding the Sixth avenue viaduct are being prepared in the office of the city engineer. The estimates and specifications are to be ready by next week Monday.

The milk men who supply Topeka with the lactical fluid are taking nervous and anxious that there will probably be a rise in the price of milk within the next few weeks.

A scarcity of college pennants, particularly those of Washburn and K. U., is prevalent in the local stores. This is evidence that there will be plenty of color among the spectators at the game tomorrow.

The intersection at Eighth and Kansas avenue was rerouted first in order to make it possible to handle traffic across Kansas avenue without waiting for the remainder of the block to be paved.

W. W. Harvey who left Topeka less than a year ago and moved to Ashland, was elected county attorney of Clark county on the Republican ticket by 137. He was next to the highest man on the ticket.

Much speculation is rife as to who will be the appointee of John Schenck in the county attorney's office and it is more than likely that there will be a number of changes in the other offices at the court house, noticeably in that of sheriff.

It has been suggested by one of the officials at the court house that County Commissioner Sterne will now have three years to which to meet and get acquainted with Councilman Simms who was elected county commissioner Tuesday to succeed S. H. Haynes.

A newly married couple, who have a two by four house, received no less than eight large rocking chairs for wedding gifts. They're going to store three or four of them on the roof. They'll have to, for there is no room in the house now to stand up in.

During the recent social season at the Elks some one exchanged over-

coats with Galen Nichols, leaving one which is about two sizes too small for him and he is shivering as he hastens to and from his work hoping that the party who has his coat will discover the mistake and return it.

George R. Hungeate, the auctioneer is pleased at a remarkable record he made at O'Martinson's sale in Seabrook. He sold his dairy herd at auction through Mr. Hungeate and they averaged \$40 per head. One Holstein cow with a nice heifer calf at side sold for \$125, one for \$65, and one Shorthorn cow for \$45. The entire herd showed careful treatment with an abundance of alfalfa. A span of yearling colts sold for \$155.

Sketches of the winners in the New York State Contest.

New York, Nov. 9.—The peculiar political situation in New York state growing out of the probable selection of its Democrats to administer the state government, with Charles E. Hughes, the Republican governor-elect, calls attention to who and what these apparently successful candidates are.

Levitt Stuyvesant Chanler, who may be the next lieutenant governor, is 35 years old. He is a graduate of Columbia law school and attended Cambridge university in England. He has been in politics ten years, his activities for the most part having been confined to Dutchess county, where he was twice elected to the board of supervisors. He is independently wealthy.

John Sibley Whalen, the secretary of state-elect, is a labor union man. He aided in the organization of the Tobacco Workers' International union and has served three terms as president of the Central Trades and Labor council of Rochester. He is 38 years old and has never held political office.

Martin H. Glynn, controller-elect, is the editor and part owner of the Albany Times-Union. In 1888 he was elected to congress from the Albany district and served one term. Otherwise he has not held public office.

William S. Jackson, elected to the office of attorney general, is first assistant district attorney of Erie county. He was concerned in the prosecution of the men implicated in the Buffalo cemetery scandal.

W. J. Hauser, treasurer-elect, hails from Sayville, Suffolk county. He is a master baker. He has held various places in the administration of the town of Sayville.

Frederick W. Skene, who has been elected state engineer, is an engineer in the employ of the department of public works in Queens. He has never held an elective public office.

AN EXPERIENCE OF GEO. STONE.

How the St. Louis Player Lost and Recovered a Famous Bat.

One of the exciting experiences of the season which failed to get into print occurred on the last trip of the Browns to Philadelphia, with George Stone as the indirect and unwilling hero. In fact, Stone was more the victim than the hero, and one of the younger generation of Quakers came near filling the latter role not only at the time, but for the next year to come. The incident was directly due to Stone's fame as a batsman, and what brought it about particularly was some homerun hitting by the present champion.

As it happened that day the standing room only sign was out, and much of the standing room was to be found on the field. A bunch of youngsters gathered around the Brown bench, and by watching their chance one of them managed to steal Stone's bat just as the game closed. When the players picked up their sticks the loss was discovered, but there was no way of telling where it had gone. As Stone had been doing some great batting and the team was on a winning streak, the players considered it an ill omen to lose the bat, and from McAleer, on down they left the park dismayed.

The bus had not gone a block before Jack Powell saw the bat sticking out from under the coat of a boy in the crowd. Powell was well up in the bus, but he fell out over the feet of the others and pulled some of them out of their seats in his hurry to get to his feet, and he ducked and dodged through the crowd like an eel. Handcapped by the crowd, the boy gained a good lead, and for two blocks the chase through the streets was a lively one, until Harry Niles finally made up a lot of ground and pounced down on the lad long enough to get the bat away from him. By this time the players were strung along behind for a block, with Jack O'Connor, Fred Glade and Jack Powell bringing up the rear. The latter claimed full credit for the capture, as the one who saw the bat first, and the others were too much out of breath to dispute his claim.—St. Louis Globe-Democrat.

Lead Pencils Go Up.

New York, Nov. 9.—The wholesale rate on all lead pencils costing \$3.50 or less a gross has gone up, according to announcements being sent to stationers by domestic manufacturers, from 5 to 15 cents a gross. New price lists on some lines of foreign pencils are also being sent to dealers. The reason given for the advance is the higher cost of labor and materials.

Silverware Prices Advance.

New York, Nov. 9.—Following the recent advance in sterling silver knives, forks and spoons, the manufacturers of plated silverware have announced

new price lists on these articles. The International Silver company, which comprises several affiliated concerns, put up its prices from 5 to 10 per cent on all plated ware. Hollow ware, which includes pitchers, bowls and vessels of various kinds, remains at the old prices.

S. S. S. DRIVES OUT RHEUMATISM

The aches and pains of Rheumatism are only symptoms which may be scattered or relieved with liniments, plasters, blisters, etc., or quieted with opiates. As soon as the treatment is left off, however, or there is any exposure to dampness, or an attack of indigestion, the nagging pains, sore muscles and tender places on the flesh return, and the sufferer finds that he has merely checked the symptoms, while the real cause remains in the system. The cause of Rheumatism is a too acid condition of the blood, brought on by indigestion, chronic constipation, weak kidneys, and a general sluggish condition of the system. Waste matter collects in the system each day which nature intends shall be carried off, but when it is left because of a sluggish condition of the system it sours and forms uric and other acids. These are taken up by the blood and carried to all parts of the body to produce the pains and aches of Rheumatism. S. S. S. cures Rheumatism by going down into the blood and driving out the cause and making this life stream rich, pure and healthy. When the blood has been purified and built up by S. S. S. the pains and aches pass away, the muscles become soft and elastic, and Rheumatism driven from the system. Book on Rheumatism and medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Standard Boosts Wages.

Lima, O., Nov. 9.—A 5 and 10 per cent advance in the wages of all employees of the refining branch of the Standard Oil company was announced here today. The advance affects immediately 900 employees of the Solar refinery in this city, and the army of employees at Welker, Wood county, Ohio; in Oil City, Pa.; Whiting, Ind.; Bayonne, N. J.; Denver, Colo.; and S. C. No notice of like advance has been received by the pipe line department, but rumor has it that the voluntary advance will extend to every branch of the company.

Sculptor Kitson Dead.

New York, Nov. 9.—Samuel J. Kitson, the sculptor, who had studios in New York and Boston, died at 1 o'clock this morning. Kidney disease was the cause of death.
